Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 17 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy, with outbreaks of rain and occasional dry spells.

Today:
A murky start to the day, with outbreaks of light rain. Staying grey in the north and west with further drizzly rain, although becoming largely dry towards the south and east with a few brighter breaks. Maximum temperature 20 deg C (68 deg F).

Tonight:
Outbreaks of light rain continuing, and becoming more widespread across the country as the night progresses. Staying cloudy, with low cloud and overnight fog across Snowdonia. Minimum temperature 13 deg C (55 deg F).

Wednesday:
Rain gradually easing through the morning, with just the occasional drizzle still affecting the north and west in the afternoon. A little brightness developing elsewhere. Maximum temperature 20 deg C (68 deg F).

Outlook for Thursday to Saturday:
Scattered showers for many on Thursday, some heavy, especially in the south of the country. Dry on Friday, with plenty of sunshine. Widespread, persistent rain arriving later on Saturday.
